Jesus Christ Heals Today!

Ken Holmes - Perth, Healed of Liver Cancer

In 2012 Ken attended one of our meetings after being diagnosed with 80% cancer of the liver and given no hope of recovery. During the prayer, Ken felt heat radiate into the liver area. Two weeks later, after performing keyhole surgery to take a biopsy, the surgeon was amazed to find no sign of cancer. Recent tests confirm Ken's healing. Ken has been assisting at our healing meetings ever since.
